The *FUSION* of *TECHNOLOGY* with *NATURE*

MAGICOLORS™ EXPOSED AGGREGATE POOL FINISH

Magicolors finishes are blends of specially selected quartz and other aggregates, fortified white Portland cement and 3M color quartz accents. Magicolors provides the proven durability of exposed aggregate finishes as an alternative to traditional pool plaster. Magicolors' variety in color and texture offers the customer almost limitless flexibility in poolscape design. Ideal for residential or commercial projects, Magicolors is easily installed but intended for use by professional applicators.
